Empowering Connectivity, Inspiring Possibilities

DC12

Introducing our multi-output
12V Power Supply.
Perfect for powering multiple
devices and electronics with
ease.

FEATURES

- Six independent 12VDC outputs
- Each output has a maximum output of 1A
- Overload protection (Output)
- Short circuit protection (Output)
- Removable push-in wire connectors
- Input power can be either direct 24VDC or AC-DC power supply (Included)

SPECIFICATIONS

Description	Multi-Output 12VDC
Chassis Color	Black
Chassis Material	Plastic
Input	
DC Voltage	UL listed power supply (100-240VAC input, 24VDC 2A)
Connection	2 Position Removable Push-In
Outputs	
Connection	Independent 12VDC, 1A (6A total) Qty 6, 2 Position Removeable Push-In
Protection	Output overload, short circuit
Mounting	4 Brackets included for vertical and horizontal installations
Dimensions	7"L x 3.25" W x 2.27"H
Weight	1.06 lbs.
